

Dos Attack Data Set

- Installation already done in Last Tutorial.
- I performed a DoS attack on a Kali system and saved the DoS attack data using wireshark.
- Data set (CSV, JSON , pcap, pcapng)
- Then add this dataset to Kibana.(At home page there is option upload a file)
-

- Go to the dashboard, then create a new visualization and use the dataset that was uploaded. Select the field you want to visualize.
